ABSTRACT

The abstract is a short, informative summary of no more than 200 to 300 words. References should not be cited. The abstract should not simply list the topics covered in the paper, but should (1) state the scope and principal objectives of the research, (2) describe the methods used, (3) summarise the results, and (4) state the principal conclusions. The abstract will be the most widely read portion of the paper. The text of the abstract should be 12pt Times New Roman font, single-spaced and left-right justified. A single line space should be left below the title 'ABSTRACT'. Simply highlight this text and replace with the words of your abstract. Leave a single line space above the keywords listed below.

KEYWORDS: Up to 5 key words in 12pt Times New Roman font, separated by commas; these will assist in the cross-indexing of the paper. Leave two line spaces before the Introduction below.
