Advancing Technology for Humanity

IEEE Baltimore Section

WELCOME TO THE IEEE BALTIMORE SECTION

All are Welcome!

The **IEEE Baltimore Section** is delighted to announce and host the second IEEE Baltimore Technical Colloquium and Professional Development Conference on 2025 November 15, University of Maryland, Baltimore County.

"Innovation and Leadership in Emerging Technologies"

Irrespective of your IEEE membership status or location, we cordially invite you to actively engage in the enriching experience of an IEEE event and embrace the IEEE community.

This conference, structured into specialized tracks, will delve into areas with concentrations in Engineering in Medicine and Biology, Engineering in Technology and Research, and Engineering Applications (such as for production of electricity and manufacturing). It will spotlight existing and emerging technologies such as Artificial Intelligence, Blockchain, Cybersecurity, Data Analytics, Advanced Wireless, Information Technology, Quantum Computing, Computational Medicine, Semiconductors, Renewable Energy and more.

Moreover, a unique track will focus on enhancing "power skills," formerly known as "soft skills," which are essential in today's fast-paced professional landscape and hybrid workplace.

These skills, in conjunction with technical expertise, are pivotal for achieving professional success.

This conference serves as a collaborative platform for professionals, industry practitioners, young professionals, and students to partake in interactive sessions, networking, knowledge sharing, and career development opportunities. Attendees can gain valuable insights into industry trends, interact with distinguished figures from industry, academia, and government.

Call for Posters, Demos, and Presentations
Accepted participants have the opportunity to showcase their research or project through interactive poster displays in allocated sessions, engaging demonstrations and could potentially be chosen for presentation in the conference agenda.

IEEE

Advancing Technology for Humanity

AT A GLANCE

A not-for-profit organization with over 486,000 members in more than 190 countries. More than 67 percent from outside the United States. More than 189,000 Student members.

Who we are

IEEE is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity. IEEE and its members inspire a global community through its highly cited publications, conferences, technology standards, and professional and educational activities.

IEEE is led by a diverse body of elected and appointed volunteer members. The operations structure includes boards for operational areas as well as bodies representing members in the 47 Societies and technical Councils and ten worldwide geographic Regions.

IEEE members are engineers, scientists, and allied professionals whose technical interests are rooted in electrical and computer sciences, engineering, and related disciplines.

The professional home for the engineering and technology community worldwide

IEEE Advancing Technology for Humanity   IEEE.org   **1884-2025**   INSPIRING TECHNOLOGY BREAKTHROUGHS

Celebrate IEEE's recent 140th anniversary with "Inspiring Technology: 34 Breakthroughs" eBook.

Explore the innumerable discoveries and groundbreaking inventions that helped build the world we live in.

- 347 **Sections** in ten geographic Regions worldwide

- 2,815 **Chapters** that unite local members with similar technical interests

- 3,613 **Student Branches** at colleges and universities in over 100 countries

- 4,240 **Student Branch Chapters** of IEEE technical Societies

- 670 affinity groups; IEEE affinity groups are non-technical sub-units of one or more Sections or a Council. The affinity group parent entities are the **IEEE-USA Consultants Network, Young Professionals (YP), Women in Engineering (WIE), and Life Members (LM)**

BECOME A SPONSOR OR EXHIBITOR
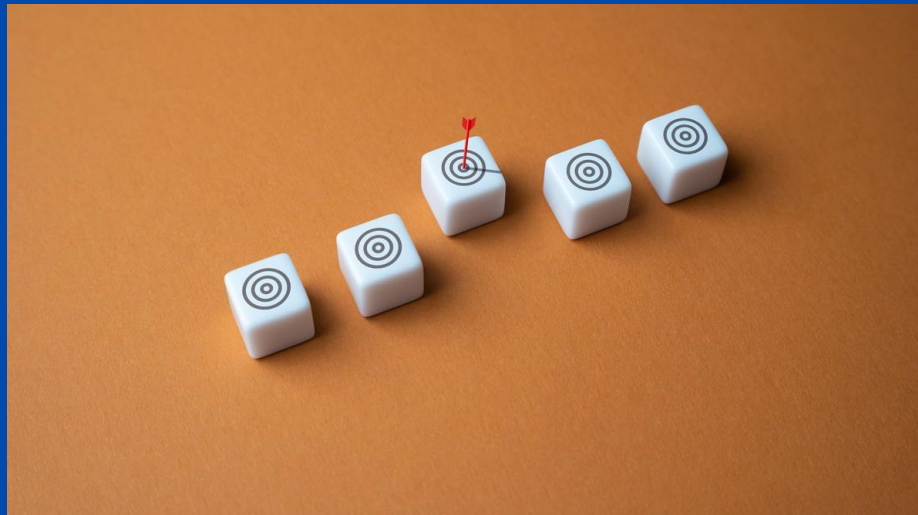

Brand Visibility and Market Expansion

Showcase and demonstrate existing and newly-developed innovative products in a more personalized manner. Attendees associate your presence and brand with the event, enhancing your reputation.

Community Involvement and Impact

Enhance attendee experience by increasing engagement levels. Gain valuable insights into stakeholders' interests and preferences. Discover new collaborative opportunities or develop partnerships to create, test, and validate innovative ideas.

Direct Engagement and Networking Opportunities

Meet students and young professionals with aspiring talent. Promote direct interaction with your target audience including job seekers, prospective customers, and individuals intrigue by your industry or offerings.
