How to write a successful nomination for IEEE Fellow Elevation

08 January 2025
11:00 AM ET (UTC -5)

ABSTRACT:

The IEEE Fellow is the highest grade that IEEE members may aim at and recognizes two individual significant technical contributions to the profession and society at large. The IEEE Fellow Elevation requires a nomination process performed by a nominator, followed by an evaluation process at society level and then at IEEE level.

The main goal of this tutorial is to provide a comprehensive presentation of the evaluation process and on how to write a successful nomination for IEEE Fellow Elevation, emphasizing the best practices on how to put in light the nominee's contributions. This tutorial is then dedicated to both nominators and nominees, and provides the last changes performed at IEEE level in the last two years on the IEEE Fellow Elevation process.

SPEAKERS:

Louie Powell

Louie Powell (F '95, LF) was affiliated with General Electric Company, Power System Energy Consulting, as Manager, Transmission and Distribution Consulting. He is now retired.
He has served in many roles in IEEE and IAS including Chair, Industrial & Commercial Power Systems Department; Editor-in-Chief, IAS Magazine; IAS Manuscripts Administrator; Member and Chair, IAS Fellow Evaluation Committee; Member, IEEE Fellow Committee, and Member and Chair, IEEE Richard Harold Kauffmann Technical Award Committee. He received the Kauffmann Award (2001) and the IAS Distinguished Service Award (2014).

Radu Bojoi

Radu Bojoi (F'19) is a Full Professor of power electronics and electrical drives with the Energy Department "G. Ferraris" and the Chairman of the Power Electronics Innovation Center, Politecnico di Torino. Dr. Bojoi is involved in many research projects with industry aiming at obtaining new products involving emerging technologies. He published more than 200 papers and received 10 IEEE paper awards. Radu Bojoi served the IAS Fellow Evaluation Committee as evaluator, vice-chair and chair. Currently, Radu Bojoi is the Awards Chair of the Industry Applications Society.
