| APPROVAL OF PREVIOUS MINUTES | Review and Approval of Previous Meetings Minutes Previous meeting minutes were distributed late, so approval is delayed until the next meeting so that all will have sufficient time to review.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Fuller                  |
| AGENDA ITEM 4                | Copyright Policy, Call for patents and essential Meeting Guidelines – No intellectual property items or questions identified.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Fuller                  |
| AGENDA ITEM 6                | <ul> <li>Liaison/PES Activity</li> <li>NFPA 70 (NEC) and SCC18 updates (McCoy/Gallo). SCC18 to be dissolved 8/31/20. No firm decisions on future affiliation for former External Representatives. Proposed joint committee of PES/IAS, and possibly Computer Society have sent proposals to NFPA Standards Council. Decision pending at 8/10-12 Standards Council meeting. Computer Society demands for inclusion not expected to be accepted for inclusion in PES/IAS hosting. Both Bill and Dan have applied as individual members for Panel 16. 2023 NEC Public Inputs due by 9/10/20. NFPA 855 Task Group addresses mostly more volatile/flammable chemistries but requirements in 855 tend to apply to all chemistries. Reviewed Chapter 8 Restructuring and Pulsed Energy Task group activities. Dan noted that TIA42 also has a group producing Public Inputs.</li> <li>IEEE C2 (NESC) updates (Gallo). Reviewing joint use, ground rods and clearance requirements, plus considering consolidated requirements for wireless service nodes, 5G support. August committee meetings postponed, rescheduling pending IEEE decision on probable mandatory F2F meeting. Possible delay in NESC publishing from 2022 to 2023.</li> <li>FOSC updates (Khomarlou). Std 1138 PAR now approved. Draft for ballot will likely be approved during 9/23-24/20 virtual meetings. Working on Optical Phase Conductor (OPPC) 1555 Standard also (challenges include fiber splice point isolation, e.g. 5 km intervals). Montreal F2F meeting in August is now virtual.</li> </ul> |                         |
| AGENDA ITEM 7                | <ul> <li>Old/Continuing Business Part A         Review of Standard 820-2005, IEEE Standard Telephone Loop Performance Characteristics.         • Draft revised standard documents P820d2 marked.pdf and P820d2 clean.pdf are available in iMC WLS Standard Development folder.     </li> <li>• Ballot approved by Sponsor 7/24/20. D3 will be sent to editorial staff and ballot requested as soon as feasible.</li> <li>• No new contributions</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Fuller/ Ashton/<br>Pool |
